

## Verfahren Acquisition International

Since 2010, Acquisition International Magazine's annual awards have been highlighting the amazing work done by those firms and individuals whose ceaseless dedication to innovation, customer care and the continued growth and improvement of their businesses has seen them forge ahead of their competitors and raise the bar for performance and results in their industry.

We pride ourselves - and rightly so - on the validity of our awards and winners, an approach that is reflected in the rigorous and tightly monitored nomination, judging and selection processes. Every one of our awards is given solely on merit, meaning that there are no commercial requirements, no awards guaranteed by payment and no barriers to entry. In other words, no matter how big or small your business and regardless of where you're based, the only factors that will determine your success are the work you do and the results you achieve.

### **Methodology**

As mentioned, each and every nomination is subject to a lengthy and in-depth assessment process, designed to enable us to separate the truly remarkable from their peers.

The process begins the second we open the ballot boxes and distribute the voting forms to our worldwide network of partners and industry experts and sees us combine the votes received – alongside submitted supporting evidence, our own in-house research and the in-depth knowledge and expertise of our network of corporate leaders and experts to arrive at our final winners list.

This comprehensive selection and judging process ensures that our awards are always a true representation of the market in question and that all of our winners are truly at the cutting edge of their respective industries.
